

Structure recap

1. **Company snapshot** — €31B sales, 624 stores, ~30 countries, ~90k employees, 15–17M customers, with a fact table for quick reference
2. **Business model** — three channels: cash-and-carry stores, FSD delivery, digital marketplace + platforms
3. **Customer segments** — HoReCa, Traders, SCO (table format)
4. **Strategic positioning** — **sCore** — three pillars (focus / multichannel / digital) + the 2030 financial ambition (€40B sales, 40% digital, FSD tripled)
5. **Digital portfolio** — M|Shop, METRO MARKETS, M|Companion, DISH, fulfillment, checkout (table format, your screenshots earn their place here) + strategic role (retention, reach, intelligence)
6. **Sources** footnote at the bottom

How this slots into your deliverables

Report structure becomes:

1. Business Context (this PDF)
2. Scope to Indicators (the v4 PDF you already have)
3. KIQ analyses (1.1, 1.2, 1.3, 1.4, 2.1, 2.2, 2.3, 3.1, 3.2, 3.3)
4. Synthesis / strategic recommendations

Presentation structure becomes:

1. 1–2 slides: METRO AG business context (using bits from this doc)
2. 1 slide: project scope and KIQ structure
3. KIQ findings (1 slide per KIQ or per KIT)
4. Strategic synthesis

This whole section took ~20 minutes and dramatically improves the rigor of your deliverable.

Verify the financial figures against METRO's own most recent published report before final submission (numbers may have moved between FY 2023/24 and now, since their financial year ends September). Everything qualitative is solid.
