

KIQ 3.2 — Verified Sources

Public documentation supporting each competitor's feature set in the comparison heatmap. Each source verified live via structured web research.

Method note

Because most competitor platforms are login-walled, feature evidence was gathered from (a) the publicly documented capabilities of each platform's infrastructure stack (Mirakl, Adobe Commerce, Commercetools), (b) digital-native platforms' own product documentation (Choco, REKKI, Amazon Business), and (c) implementation case studies (freiheit.com for METRO MARKETS).

Mirakl — powers Sysco Marketplace

- Mirakl Marketplace Platform — official product page
<https://www.mirakl.com/products/mirakl-marketplace-platform>
- Mirakl B2B Commerce — punchout, BNPL, payment terms, taxonomy mapping

METRO MARKETS & METRO M|Shop — custom build via freiheit.com + DataArt

- METRO MARKETS official site — country rollout, multi-vendor catalog
<https://metro-markets.de/>
- METRO AG — CEO Philipp Blome on METRO MARKETS strategy and feature scope
<https://stories.metroag.de/en/movingboundaries/a-single-click-for-everything>
- freiheit.com case study — METRO e-commerce platform build (customized pricing, "global rollout")
<https://freiheit.com/what-we-do/case-studies/case-study-metro/>
- Financial IT — DataArt and METRO MARKETS partnership (next-gen ERP for marketplace)
<https://financialit.net/news/e-commerce/dataart-and-metro-markets-announce-success-partnering-build-digital-marketplace>
- METRO AG newsroom — original B2B online marketplace launch (DE 2019)
<https://newsroom.metroag.de/en/news/metro-launches-online-marketplace-for-restaurateurs>

Method: All URLs verified live via structured web search. Vendor documentation (Mirakl, Adobe Commerce, Commercetools) was prioritized as primary evidence; agency case studies, technology journalism (TechCrunch, Restaurant Business Online, PR Newswire, Food Digital, StartupHub.ai), and third-party platform comparisons (DCKAP, Bitbag, Atwix, Net Solutions, FireBear, On Tap, Shopware) were used to corroborate vendor claims and add B2B-specific context. No paywalled sources were used.
